EXPERIENCE

2023 – Present : **IBM Greece**
Software Architect

Leading the design and development of complex software systems for banking industry, I've collaborated closely with cross-functional teams to translate business requirements into scalable, efficient, and maintainable software solutions. This role has deepened my understanding of software design principles, frameworks, and emerging technologies, ensuring the alignment of technical solutions with organizational objectives and bonding a diverse team with members of different countries.

2019 – 2023 : **IBM Greece**
Full Stack Software Engineer

Being part of a highly functional and demanding set of applications for one of the top ranked banks in Greece, I improved my software development skills, team cooperations and daily communication with the client. Developing expertise in programming languages such as Java, JavaScript and middleware integration in Apache Camel, main goal was to deliver end-to-end solutions that are used by a large number of customers in the banking industry. Key skills include Spring MVC with Thymeleaf framework, Rest and SOAP services, FileNet Business Process Management and FileNet Enterprise Content Management.

2019 : **Sony Centers**
eCommerce Platform Developer

Customizing and maintaining the Wordpress website of [Sony Centers](#) in order to meet client's requirements , and integrating to OpenCart eCommerce Platform gave me the opportunity to face the demands of the commercial industry, fast pace and everyday changing demands and prices. Experiencing the customer service in a professional level enhanced various aspects of my personality as negotiation skills, time management and financial acumen.

2017 : **LostCaparica Surf House** - volunteer
Website Developer, Front Desk Service

Travelling to Portugal as a volunteer I took an opportunity to help and enhance online presence and visibility of the newly opened [LostCaparica surf house](#) by developing and optimizing their first website.

2019 : **Hellenic Electricity Distribution Network Operator** - internship
Electrical Grid Designer and Operator

During the two months internship I was assigned to design regional electrical schematics, and digitize the old electric grid and network maps. Experiencing the formality and the standarization of all processes in the country's unique electricity distribution operator set the ground of the rest of my professional point of view.

EDUCATION

Electrical and Computer Engineering Certificate (Integrated MSc Diploma)
University of Thessaly, GR, 2020

ADDITIONAL CERTIFICATES

Professional Certificate - Quantum 101: Quantum Computing & Quantum Internet
Delft University of Technology / Issued Jan 2021

Design Patterns in Java
Udemy Certification / Issued Feb 2022

Master Microservices with Spring Boot and Spring Cloud
Udemy Certification / Issued Mar 2022

IBM Quantum Conversations
IBM / Issued Sep 2023

IBM watsonx Essentials
IBM / Issued Feb 2024

IBM Quantum-Safe Conversations
IBM / Issued Apr 2024

MILITARY SERVICE

Presidential Guard / Evzones Unit
Honoring Positioned as Evzones Trainer
Honoring grade of Lance Corporal
